SUMMARY

Junior Backend .NET Developer and recent graduate with knowledge of C#, .NET, ASP.NET Core, Web API, Entity Framework Core, SQL Server, OOP, and REST APIs. Currently enrolled in a Backend .NET training track through the Digital Egypt Pioneers Initiative (DEPI). Finished a Node.js backend training at NTI and built the backend of a graduation project using FastAPI. Also familiar with frontend development using React, JavaScript, HTML, and CSS. Seeking a junior Backend .NET or full stack role to contribute to real web applications and keep growing.

TRAINING & EXPERIENCE

Backend .NET Trainee — Digital Egypt Pioneers Initiative (DEPI) | Jul 2026 – Present

- Completing a 6-month backend development track using C#, ASP.NET Core, and SQL Server, alongside soft skills, English, and freelancing courses

Backend Development Trainee — NTI | Aug 2025 – Sep 2025

- Completed an 8-week backend development training track using Node.js

PROJECTS

Business Analysis Dashboard — Graduation Project

- Dashboard for presenting and analyzing business data
- Built the backend using FastAPI
- Applied basic security measures to protect data

Product Management Dashboard

- Developed a product management web app featuring full CRUD functionality and name/category search, built with HTML, CSS, and vanilla JavaScript, serving 30 mock products
- Implemented real-time price and discount calculation that updates totals instantly
- Persisted product data with localStorage so records remain after page refresh

Car Selection Web Application

- Interactive web app for selecting and filtering cars
- Supports 4 car types with dynamic selection
- Used JavaScript for events and DOM manipulation

Restaurant Website

- Responsive website for a restaurant and its menu
- Built using HTML, CSS, and JavaScript
- Focused on a clean and simple user interface

SKILLS

Backend & .NET: C#, .NET, ASP.NET Core, Web API, Entity Framework Core, LINQ, REST APIs, OOP

Database: SQL Server, SQL

Other Backend: FastAPI, Node.js, Python

Frontend: React, JavaScript, HTML, CSS, Bootstrap

Tools & Other: Git, GitHub, VS Code, Docker, Azure, Cloud Computing, Data Structures, Algorithms

EDUCATION

Faculty of Computers and Artificial Intelligence, Benha University

Information Systems Department | Graduated: 2026

Finished final-year coursework and graduation project (Business Analysis Dashboard) through mid-2026

CERTIFICATES & COURSES

- SQL Certificate (All Levels) — DotNet Elwakeel
- Backend Development (Node.js) Certificate — NTI
- Frontend Development Course — SEF Future
- Udemy Web Development Course
- Cybersecurity Certificate — Google Developer Groups (GDG)
